Experience

Enterprise Rent-A-Car Oct. 2026 – present
Management Trainee *North Bay, ON*

- Train across **customer service, sales, finance, and branch operations**, serving customers directly while learning **fleet and inventory** management

Norlease | northlease.ca Aug. 2026 – present
Founder *North Bay, ON*

- Built a **Spring Boot** (**Java 21**) service that runs recurring **scheduled jobs**, including daily expense refresh, 60-day listing expiry, and orphaned file cleanup
- Built the platform in **TypeScript** with **Next.js** and **React** on a **16-table PostgreSQL** schema using **PostGIS**, **pg_trgm**, and **Drizzle ORM**
- Secured sign-up with **HMAC**-hashed SMS codes, **signed webhooks**, **Clerk** authentication, **Cloudflare Turnstile**, and **rate limiting**, then onboarded **20 landlords**
- Deployed on **Hetzner Cloud** with **Docker**, **Coolify**, and a **CI/CD** pipeline on **GitHub Actions**, with alerts for failures, cutting hosting costs by an estimated **80–90%**
- Set repository rules, review and merge every **pull request**, and coached a co-founder on the **Git** workflow and **CI/CD** pipeline

Nipissing University May – Aug. 2023, 2024, 2025
Research Assistant & Web Developer *North Bay, ON*

- Built a custom **WordPress** theme with **Tailwind CSS** and a **relational data model** in **Advanced Custom Fields**, so one edit updated every linked page
- Worked with **University Technology Services** on hosting and Media and Communications on content compliance, and wrote the user manual used to train staff across **3 separate summer contracts**

The Home Depot Canada Dec. 2022 – present
Sales Associate II, Tool Rental & Flooring *North Bay, ON*

- Promoted from Lot Associate to Sales Associate II, now handling two departments and working with teammates to resolve customer issues

Projects

Honours Research: Multimodal Video Understanding Platform | AI-Video-Analyzer Jan. – Apr. 2026

- Designed a multimodal pipeline combining **8 models**, including **YOLOv8**, **SAM2**, **Depth Anything V2**, and **Whisper large-v3**, behind a **FastAPI** backend
- Deployed the GPU inference worker on **AWS EC2** with **Docker** and **ECR**, connecting **S3**, **SQS**, and **DynamoDB** into a distributed cloud pipeline built and tested solo
- Managed cloud costs by running the instance about **30 hours per week** and stopping it between sessions

Leadership

Nipissing University 2022 – 2025
Computer Science Student Representative *North Bay, ON*

- Served as elected intermediary between students and the Dean for **3 years**, and organized **hackathons, seminars, and workshops**
